

Series 6 - Programming

1. Press the **HOME** button – this is the circular button under the display
2. Press the **MENU** button – this is the button with 3 horizontal lines under the display. The display should show **SET TIME** or **WIFI SETUP**.
3. Use **^** to select **SET SCHEDULE**
4. Press **HOME**
5. Use **^** to choose between
 - **24 HOUR** – Every day will be the same
 - **7Day** – Every day will need to be set independently
 - **5-2Day** – One set of programs for weekdays and another for weekends

For this example, we will select 24 Hour – every day will use the same heating programs.

6. Use **v** to select **HEATING SCHEDULE**
7. Press **HOME**
8. Use **^** to choose between different days
9. Press **HOME** – your first daily program will be shown, (P1) the start time will be flashing. Use **^** & **v** to set the ON time, e.g. 6:30am.
10. Press **HOME** – the end time for P1 will flash, this is the time you want your heating to go off. Use **^** & **v** to set the OFF time, e.g. 8:00am
11. Press **HOME** – the temperature for your first heating program will flash. Use **^** & **v** to set the temperature, e.g. 20c

12. Press **HOME** – your second daily program will be displayed (P2). This will be an OFF program. The start time will be the same time as your previous end time so you can ignore this.
13. Press **HOME** – your P2 end time will flash. Use **^** & **v** to set the OFF time, e.g. 4:30pm
14. Press **HOME** – the temperature for P2 flash. Use **^** & **v** to set the temperature. This is an OFF program, set the temperature low, e.g. 15c
15. Press **HOME** – your third daily program will be displayed, (P3) and the start time will flash, this will be the same as your previous end time so you can ignore this
16. Press **HOME** – your P3 end time will flash. Use **^** & **v** to set the OFF time, e.g. 9:30pm
17. Press **HOME** – the temperature for P3 will flash. Use **^** & **v** to set the temperature, e.g. 21c
18. Press **HOME** – your overnight program will be displayed, (P4). The start time for P4 will be the same time as your previous end time so you can ignore this
19. Press **HOME** – your P4 end time will be shown but you won't be able to change this as it will be the same as your P1 start time for the following day
20. Press **HOME** – the temperature for P4 will flash. Use **^** & **v** to set the temperature. This is an OFF program, set the temperature low, e.g. 15c
21. Press **HOME**
22. If you are using 5/2 setting or 7 day setting you will need to set the remaining days by starting at number **8** above.
23. When you have finished, tap the **RETURN** arrow until your thermostat shows your room temperature.
24. Tap the **HOME** button until you can see **HOME** at the bottom of the display.
