

QUICK HOMEOWNER GUIDE TO THE COMBI CONTROLS PACK CPC2ZP6C

PROGRAMMABLE ROOM THERMOSTAT

What is a Programmable Room Thermostat?

A Programmable Room Thermostat combines a timer and thermostat in one unit by allowing you to set your desired comfort temperature at different times during the day. The ES RTP6C can operate as a 7day, 5/2day or 24hour Programmable Room Thermostat with either 4 or 6 time and temperature events per day.

The ES RTP6C also includes energy saving Optimum Start technology as well as the safety feature of Landlord Service. These options can be turned on or off depending on user preference.

QUICK HOMEOWNER GUIDE TO THE COMBI CONTROLS PACK CPC2ZP6C

PLUG FIT MOTORISED ZONE VALVE

What is a Zone Valve?

Motorised Zone Valves are used in wet central heating systems to control the flow of heated water from the boiler to primary circuits such as radiators.

Plug Fit Motorised Zone Valves mean there is no wiring necessary – simply plug them into your PCB Wiring Centre

ANNUAL MAINTENANCE

An annual service should be carried out in order to ensure safe working and optimum performance and maintain the guarantee.

YOUR GUARANTEE MAY BE VOID WITHOUT PROOF OF ANNUAL SERVICING.
