Wireless and wired programmable room thermostat
ESRTP4RWF

Our most popular programmable room thermostat is now even better. We have improved the buttons to make them more user-friendly, and when installed with a WiFiHUB (sold separately), it can now be controlled via the Centro App or Alexa.

The Centro App has also been enhanced, offering an improved user experience and complete control of home heating. The thermostat itself continues to be cost-effective, easy to use, and packed with energy-saving features.

ESi offers a free laser printing service, ensuring your customers continue to be your customers.

Follow us:

Tried and tested technology

Same quick and easy install

Controlled via the new and improved ESi app

Free laser printing

Start/stop and delayed start functions for enhanced cost efficiency

The popular **ESRTP4RF+** is still available at a merchant near you.
