Mistral

Wireless Programmable Room Thermostat

The Mistral is a wireless programmable room thermostat, available in white or grey, designed for quick installation and easy use.

The control features OpenTherm which automatically reduces the flow temperature of your heating system, helping you save up to 15% on your gas use, significantly lowering bills.

There is also a wired version available called **Cirrus**, visit esicontrols.co.uk for more information.

Follow us:

Download the ESi Centro App and take control of your heating system.
